4. Rationale of the Scheme

Ecotech Green Lifecycle Limited is a wholly owned subsidiary of TPL Plastech Limited, the Transferee Company. Both the Companies are part of the same group.

Accordingly, the Board of Directors of the Transferor Company and the Transferee Company has decided to amalgamate the Transferor Company together with their business and undertaking, with the Transferee Company, so as to achieve the following benefits:

- a) Greater integration and greater financial strength and flexibility for the amalgamated entity, which would result in maximizing overall shareholder value and will improve the competitive position of the combined entity.
- b) Consolidation of business of the Transferor Company and the Transferee Company into a single entity which would result in the business activities to be carried out with greater focus and specialization thus, leading to the objective of achieving sustained growth.
- c) The Transferee Company believe that the financial managerial and technical resources, personnel, capabilities, skills, expertise and technologies of the Transferor Company pooled in the merged entity will lead to increased competitive strength, cost reduction and efficiencies thereby significantly contributing to future growth.
- d) Improved allocation of capital and optimization of cash flows contributing to the overall growth prospects of the combined entity.
- e) The proposed amalgamation is in line with the global trend to achieve size, scale, and creation of a larger asset base by consolidation of the assets, integration and greater financial strength and flexibility, in the interest of maximizing shareholders value.
- f) Enable the shareholders of TPL Plastech Limited to get direct participation in the business of its present wholly owned subsidiary (being Ecotech Green Lifecycle Limited)
- g) Simplified group and business structure;
- h) The consolidation of legal entities would result in reduced number of entities within the group. This would minimize cost and administrative hassle of maintaining multiple legal entities;
- i) The aforesaid synergistic benefits accruing from the consolidation would ultimately contribute to the future business and profitability of the merged entity. The amalgamation of Transferor Company and Transferee Company is, therefore, beneficial in the long-term interests of the shareholders and all stake holders of these companies.

- j) Reducing time and efforts for consolidation of financials at group level.

Thus, as a whole, amalgamation of the Transferor Company with the Transferee Company in terms of the Scheme will be beneficial for both the companies, their shareholders, their creditors, employees, customers and all others concerned with the two companies.
